

**HOLIDAYS WITH YOGA PRESENTS  
10 DAYS YOGA RETREAT TO  
ANNAPURNA BASE CAMP TREK  
19 – 28 Mar 2023**

**SYNOPSIS:** Enticing roughly 80,000 trekkers annually by its combination of natural and cultural highlights, the Annapurna Base Camp trek is possibly the most spectacular trekking trails of the world. The base camp of Mt. Annapurna I, the destination of Annapurna Base Camp Trek, sits at an altitude of 4,130 m (13,549 ft.). Along the way, the oak, rhododendron and pine forests compliment the rich cultural lives of the ethnic Gurung and Magar villages. ABC trek offers great opportunity to witness the soaring peaks without having altitude problem. Imagine waking up early morning, you open your door and come out of your campsite lodge and the first thing you see is the beautiful Himalayan peaks painted red and golden by the morning sun. There is no better way to wake up than the splendid view of sunrays painting the Himalayan peaks. It is no surprise that trekkers who trek the Annapurna region come back again and again to trek its wonderful trails.
